The purpose of this Market Information Circular (MIC) is to inform members that PrecISE users must have Microsoft .NET 3.5 installed on their desktops in order to use PrecISE 4.3, scheduled to be available in the beginning of April.

The ISE is giving notice of this important change to provide PrecISE users ample time to install Microsoft .NET 3.5, if necessary.

To verify the current Microsoft .NET version installed:

- A. If using a 64 bit machine,  
C:\WINDOWS\microsoft.net\Framework64\v3.5
- B. If using a 32 bit machine,  
C:\WINDOWS\microsoft.net\Framework\v3.5

If there is no folder named v3.5 it will be necessary to upgrade.

**For download instructions and additional information regarding the Microsoft .NET Framework Version 3.5 please follow this [link](#).**

We ask that our customers e-mail their questions or concerns to [helpdesk@ise.com](mailto:helpdesk@ise.com).
