Subject: Options - ISE FX Options Margin Level

The ISE has determined applicable margin levels for each currency product pursuant to ISE Rule 1202(d), which requires the Exchange to review five-day price changes over the preceding three-year period. The margin level is set at a level that would have covered price movements during the review period at least 97.5% of the time ("confidence level"). The ISE will review these margin levels each quarter in January, April, July, and October.
